AMO Asset Management Symposium

Municipal Asset Management Program (MAMP)
Karine Proulx, Manager, Capacity Building - FCM Programs

April 5, 2017
Agenda

• FCM
• Why was this program developed?
• Asset management (AM) and the Municipal Asset Management Program (MAMP)
• What does it mean for you?
• FCM Programs on infrastructure
Federation of Canadian Municipalities
Infrastructure challenges across Canada

- Municipal services rely on infrastructure
- Demand for services continues to grow
- Meeting safety and environmental standards
- Accommodate future needs and climate change
- Resources (all of them) are limited
Municipal Governments are leading on tough questions

How to prioritize investments in infrastructure?

What to repair, renovate or replace?

How to plan for tomorrow’s needs and realities?

How to budget for contingencies and emergencies?

AM is about making better informed decisions when we invest in infrastructure
Municipal Asset Management Program

- Building awareness
- Training
- Funding
- Sharing of lessons learned
Areas of focus

- People and leadership
- Data and information
- Asset Management practices
- Planning and decision-making
- Policy and governance
Available funding

- Eligible activities
