

Update: COVID-19 and Main Street Revitalization Initiative Project Extensions

AMO recognizes that the evolving COVID-19 situation is creating challenges to municipalities with regards to resource reallocation, construction project timelines, and product supply chains. For this reason, if requested, AMO is able to provide extensions for Main Street Revitalization Initiative projects to October 31, 2020.

Please send your request along with the names, titles, and emails for two signing authorities to AGarcia@amo.on.ca. AMO staff will draft a Municipal Funding Agreement for digital signature. *Note: Handwritten signatures are not an option as AMO staff are working remotely due to social distancing recommendations from public health authorities.*

Please note the following:

- Until your amendment is signed, your project is expected to be complete and all eligible costs expended by March 31, 2020. AMO is not responsible for a municipality's failure to sign the amendment.
- The new project completion date is October 31, 2020 to expend funds and to complete all reporting requirements. After October 31, 2020, unspent funds must be returned to AMO and reporting is considered past due. Please arrange your revised project completion with reporting deadlines in mind.
