

The County of Essex is Canada's southernmost county. County Council, made up of the mayors and deputy mayors of the seven lower-tier municipalities, governs us. We are nestled between lakes St. Clair and Erie, with easy access to major local and international metropolitan centres that provides the best of urban and rural living. The Corporation of the County of Essex provides diverse services to over 181,000 citizens with a work force of over 900 dedicated employees and a budget of \$145MM.

Manager, Transportation Planning & Development

The Transportation Planning and Development Division will lead the development of the County's Capacity Expansion Program to address future growth demands and manage the current impacts on the network through the application of appropriate Corridor Management techniques. The development and delivery of Active Transportation programs and related infrastructure is a core responsibility of this Division. Additional activities support the Department's Asset Management Plans and the County's role in regional development

With responsibility for over 1,500 lane kilometers of County road network, working with other local, provincial and federal counterparts is key. You are a leading member of the Infrastructure Services department, with a budget of over \$55MM and over 50 employees.
