

Leverage new provincial funding for better efficiencies

An opportunity to transform your meetings

At 2021 ROMA Conference, Minister Clark announced the Ontario government is investing over \$40 million under the second intake of the Municipal Modernization Program to help small and rural municipalities modernize service delivery and find new ways to be more efficient and effective. Application deadline: March 15, 2021.

eSCRIBE — an Ontario-based meeting management provider and a preferred partner of AMO — is eligible for this funding. eSCRIBE is currently offering a no-commitment assessment of how your municipality can raise efficiency when it comes to your meetings, and how they can help you complete the EOI application form.

Contact Nick Ruder at nruder@amo.on.ca to learn more about AMO and eSCRIBE partnership. If you're interested in eSCRIBE's offer, reach out to Fiona Tsang at ftsang@escribemeetings.com for next steps.

Upcoming Webinar – Managing Meetings & Documents in the Digital Age

eSCRIBE will be co-hosting a webinar with Image Advantage, the official reseller of FileHold, around how municipalities can leverage technology and the Municipal Modernization Program to better manage their meetings and documents. There will be two sessions, don't miss!

- [Thursday, March 4 @ 1pm ET](#)

=====

About eSCRIBE Software Ltd.

eSCRIBE supports the entire meeting lifecycle for board, committee and council meetings with tools and workflows to improve efficiency, transparency and accessibility. As hybrid meetings become the new normal for public meetings, eSCRIBE is essential to ensure continuity, efficiency, and effectiveness by seamlessly integrating both virtual and physical meeting environments into a single, unified experience.

Working with municipalities of all sizes for 15+ years, we are known for:

- Easy implementation (record time was 2 weeks!)
- Intuitive and user-friendly, no IT knowledge necessary
- Trusted and reliable service – Built on Microsoft Azure
- Phenomenal customer service, training and support
- Dedication to research and development to ensure product stays current
- Modular solution to use only what you need, and add features as needed

Onboard Remotely, No Problem!

We are experts at digitally transforming public meetings. We have onboarded many customers even at the height of COVID-19, implementing as quick as over a few weeks while working remote. It has been noted by our customers that their meetings have been less affected by the situation than others who aren't using eSCRIBE.

We can provide references for you to reach out for a discussion. [Here's a short video testimonial from Township of Cramahe \(1:31\)](#) to get you started.
