The Pledge

A growing movement of leaders and citizens who are committed to respectful discourse.

- ✓ Treat others with respect in all spaces—public, private, and online.
- ✓ Reject harassment, abuse, and personal attacks, and speak out when I witness them.
- ✓ Focus debate on ideas and policies, not personal attacks.
- ✓ Help build a supportive culture where people of all backgrounds feel safe to run for and hold office.
- ✓ Call on law enforcement to take harassment seriously and protect elected officials who face abuse or threats.
- ✓ Model integrity and respect in public life with the highest standards of conduct.

Together, we can build a culture where everyone—candidates, elected officials, and the public—can participate in democracy free from fear or intimidation.
